SKILLS

- **BackEnd :**SQL
- **Language :** Java
- **Tools known:** Eclipse

PROJECTS

MODELING & 3D PRINTING OF TWO WHEELER ENGINE RADIATOR

Two wheel engine radiator plays a crucial role in maintaining the optimal operating temperature of internal combustion engines.As the power and performance demands of modern motorcycles continue to rise, the need for effective heat dissipation becomes increasing important.

MODELLING & 3D PRINTING OF BEARING SEPARATOR

The Design and fabrication of bearing separator using computer-aided design (CAD) modelling and additive manufacturing (3D printing) techniques.Bearings separators are essential tool in various mechanical applications for removing bearings efficiently and without damage.

EDUCATION DETAILS

B.TECH | GURU NANAK INSTITUTIONAL TECHNICAL CAMPUS| 2020-2024 | 6.50

MPC | SCHOLARS JUNIOR COLLEGE | 2018-2020 | 823

SSC | TINY TOYS HIGH SCHOOL| 2017-2018 | 8.2

SUMMERY

- I have basic knowledge on Java
- I have good knowledge on SQL commands like DDL,DML,TCL,DQL and DCL, aware of joins, views, clauses

DECLERATION

I here by declare that all the above mentioned information is true and correct to the best of my knowledge.
